Risk warning: Leveraged products carry a high level of risk to your capital and you should only deal with money you can afford to lose. The value of investments can fall as well as rise and you may lose your initial margin payment. Please note that leveraged products may not be suitable for everyone, so please ensure you fully understand the risks.

Risk warning: Leveraged products carry a high level of risk to your capital and you should only deal with money you can afford to lose. The value of investments can fall as well as rise and you may lose your initial margin payment. Please note that leveraged products may not be suitable for everyone, so please ensure you fully understand the risks.

Things to note:

In view of the active impact of some US stock markets, in order to balance transaction risks, our company will double or quadruple the margin half an hour before the closing of the trading day before the US stock results are announced. The specific arrangements can be based on the holiday margin display in the software details. Please consult for details. customer service.

Risk warning: Leveraged products carry a high level of risk to your capital and you should only deal with money you can afford to lose. The value of investments can fall as well as rise and you may lose your initial margin payment. Please note that leveraged products may not be suitable for everyone, so please ensure you fully understand the risks.

Risk warning: Leveraged products carry a high level of risk to your capital and you should only deal with money you can afford to lose. The value of investments can fall as well as rise and you may lose your initial margin payment. Please note that leveraged products may not be suitable for everyone, so please ensure you fully understand the risks.

Risk warning: Leveraged products carry a high level of risk to your capital and you should only deal with money you can afford to lose. The value of investments can fall as well as rise and you may lose your initial margin payment. Please note that leveraged products may not be suitable for everyone, so please ensure you fully understand the risks.

Things to note:

Actual trading spread: The spread fluctuates according to market volatility. The above information is only general information. Please refer to the trading platform for details.

Intraday liquidation rules: If the net value is less than or equal to 20% of the initial margin, the system will automatically liquidate the position with the largest loss in the account based on the market price until the net value of the account is higher than 20% of the initial margin.

Weekend liquidation rules: If the net value is less than or equal to 200% of the initial margin (100% of stocks), the system will automatically liquidate the position with the largest loss in the account based on the market price until the net value of the account is higher than 200% of the initial margin. (100% stock).

Lock-up margin: The required margin is 25% of the total initial margin for lock-up orders (50% for stocks).

Risk warning: Our company's services include products traded on margin, with the risk of incidental losses exceeding your deposited funds, and may not be suitable for all investors. Please make sure you fully understand the risks involved.
